DRG DAB Consortium switched on Milan DAB+ transmitter

23.01.2023 – Digital Radio Group Scarl - Italy

The experimental installations of the Digital Radio Group Consortium – DRG DAB continue. After Rome it is time of Milan, activated in the city center from the Via Turati site. The transmitter operates on channel 9C on the 206.352 Mhz frequency with service in Milan and the province and will soon be followed by transmitters on the same channel for the provinces of Brescia and Bergamo. DRG DAB, a multi-regional consortium of local radio broadcasters, has presented the expression of interest to the Ministry of Business and Made in Italy for the assignment of rights of use for the DAB+ operator for the Lombardy Basin n.3. This request is in addition to those of Lazio, Sardinia and Sicily already being evaluated by Mimit. Stay tuned!
