EmiTel selects DAB⁺ Multiplexers from VDL for Polish Radio's Digital Radio roll-out

Following recent long-term trials, EmiTel (Warszawa, Poland) has chosen VDL (Lyon, France) Multiplexing equipment for Polskie Radio (Warszawa, Poland) DAB⁺ digital radio network roll out across the major cities in Poland.

Digital radio in Poland will increase coverage in another six cities. As a result, Polskie Radio programmes should be available in digital form to 30 percent of Poles by the end of the year.

The process of digitisation started on 1 October 2013, and digital radio is now available to inhabitants of four cities in Poland. Since October 2013, Polskie Radio has been broadcasting DAB⁺ services in Katowice and Warsaw. From 1 August 2014, the coverage was extended to Wroclaw and Szczecin. In October 2014, DAB⁺ will be launched in Lodz and Opole. Gdansk, Kielce, Krakow and Poznan should be covered not later than January 1st 2015.

Full national coverage is planned in 2020.

The VDL Multiplexers are being supplied and supported by ZEP (Piaseczno, Poland).

DAB⁺ Multiplexers from VDL support Digital Radio roll-out in Poland

About EmiTel
