

## PRESS RELEASE

### Frontier Silicon powers 100% of What Hi-Fi? best-buy DAB digital radios

What Hi-Fi? has announced its 2014 list of the best DAB radios to buy this Christmas – and all of the selected models are based on Frontier Silicon technology.

The devices, from manufacturers Arcam, Geneva, Philips, Pure, Roberts, Revo and Ruark, include portable, handheld and desktop digital radios, hi-fi tuners and in-car DAB radios. Prices range from under £50 up to £600.

**Prem Rajalingham, Vice President of Sales and Marketing, said:** “The What Hi-Fi recommendations are testament to the flexibility and robustness of Frontier Silicon’s DAB radio solutions. We are delighted to work with our brand partners to produce such well-designed and executed products. Our aim now is to maintain this leadership position with the next generation of outstanding audio products.”

#### About Frontier Silicon Limited

Frontier Silicon is the world’s leading supplier of integrated circuits and modules for digital radio and connected audio products. The company is part of the Toumaz Group, a pioneer in low-power wireless semiconductor and software technologies for consumer audio and wireless healthcare.

Frontier Silicon’s audio products offer solutions for DAB/DAB+, Internet Radio and Connected Audio - from silicon through software to production-ready platform designs.

Customers supplied by Frontier Silicon include Bose, Denon, harman/kardon, Onkyo, Panasonic, Philips, Pioneer, Pure, Roberts, Sony, Yamaha, and many more.

Frontier Silicon is a trademark or registered trademark of Frontier Silicon Ltd.
