

## **Clearbox Systems enters agreement to represent Digidia products in Australia** ***Move positions both companies for success in emerging DAB+ expansion opportunities***

16 February 2017

*Sydney, Australia and La Chapelle-des-Fougeretz, France* – Digidia and Clearbox Systems have announced they have entered an agreement for Clearbox Systems to represent Digidia’s DAB and

Synchronous FM product lines in Australia.

The move will see engineers and technicians from Clearbox Systems trained in the Digidia product suite to allow for Clearbox Systems to provide system design and integration, sales engineering and after-sales support for the Digidia range.

Pascal Olivier, President at Digidia commented on the agreement saying, “We know our product-line can successfully compete on the world stage. Our agreement with Clearbox Systems means that in Australia our product is backed with the right local technical expertise and support, increasing our competitiveness further.”

Greg Reid, Chief Operating Officer at Clearbox Systems went on to say, “Along with our contribution to the existing DAB+ systems, this agreement positions us well to contribute to the emerging DAB+ expansion and regional rollout in Australia. With the Digidia product line being software-based it allows us to leverage our existing software expertise to deliver the best solution to our customers.”

For sales enquires contact Clearbox Systems at [sales@clearboxsystems.com.au](mailto:sales@clearboxsystems.com.au) or call 02 9114 6164.

### **About Digidia**
