

PRESS RELEASE

NORWEGIAN LOCAL RADIO GOES DIGITAL

2017-05-24

for immediate release

The radio station Radio Alta has ordered a complete DAB Head-end system from Paneda. The system contains a DAB Multiplexers with encoders. The system is delivered as a turn-key solution using the Paneda 1U hardware.

The complete system is realized in the Paneda 1U true all-in-one unit with multiplexer, up to 16x DAB/DAB+ encoders, metadata content server and management built-in. The Paneda 1U offers redundant network interfaces as well as dual power supplies. Audio interface supported is AES/EBU as well as most known IP formats.

Stefan Skorpe, Technical Manager says:

“The All-In-One Paneda unit for DAB suits us very well, its compact and cost efficient and easy to operate and doesn’t requires any particular skills to get started, in fact we where able to get on air completely by our self’s by just reading the on-line manual. We are now on-air and very pleased with the provided solution as well as great education and support from Paneda”

Lars-Peder Lundgren, Sales Manager at Paneda says:

“It’s clear that different customers have different needs, and we are pleased to note that Paneda can offers all kind of solutions for this, and we are satisfied to have another happy user of our systems”
