

IBC2024, Amsterdam

Energising radio: global advances and innovations in DAB+

Join WorldDAB industry experts to hear how DAB+ is energising broadcast radio markets around the world. This session includes updates on the latest global deployments, innovations in DAB+ emergency communication, and will delve into why broadcasters across Europe, Africa, the MENA region, and APAC are future proofing their radio industry with DAB+.

Session moderator:

Bernie O'Neill, Project Director WorldDAB

DAB+ global update - a success story
