

Digital Radio
DAB+

About DAB+ digital radio

DAB is the digital radio standard of choice across Europe, with over 56% of the EU population able to receive DAB/DAB+ services. Over 47 million receivers have been sold around the world and Norway will be the first country to completely switch off FM services in 2016.

Political commitment to DAB continues to go from strength to strength particularly in the UK, Germany, Switzerland, Belgium and The Netherlands where network coverage is well over 90%. With momentum for DAB growing across the rest of Europe and Asia Pacific, now is the time to embrace the opportunity.

Location: Messe Berlin, Messedamm 22, D-14055 Berlin

About WorldDAB

WorldDAB is the global industry forum responsible for defining and promoting DAB digital radio. By bringing together radio industry professionals, WorldDAB provides knowledge and expertise that helps countries successfully adopt and implement broadcast digital radio.

Our 90-plus members cover 27 countries across the globe and include public and commercial broadcasters, regulators, network providers and manufacturers of receivers, chips, professional equipment and automobiles.

Together, we are shaping the future of radio, delivering advice and tailored solutions on all aspects of the switch from analogue to digital.
