Press release – 11.10.2011

14 DAB radio stations already available in the Czech Republic!

The digital radio DAB is currently covering 2,8 million inhabitants of the Czech Republic. The signal can be tuned in Prague and its surroundings, in Příbram, Brno and its region, and in the large part of the Moravia-Silesian region. 14 radio stations have already been broadcasted in TELEKO multiplex.

New genre foreign stations have been added to the previous offer of public radio "Česky rozhlas" programmes (Leonardo, Wave, Česko, D-dur, ČRo 2, ČRo 3, Region) and radio Proglas and GAMA radio. The new stations include informative programme Radio Vaticana, the hit commercial station RTL 102,5 and all-music programmes RTL Classic, RTL Groove and RTL Italian Style. They are broadcasted in DAB and DAB+. More technical details and updates about the broadcasts can be found on our website www.teleko.cz. For reception it is recommended that a receiver that enables reception of both DAB and DAB + in Lband, should be used.

Digital Radio DAB (Digital Audio Broadcasting), which will soon replace the present analogue broadcasting, delivers to the listener a significant expansion of program choice, increased sound quality and will deliver various supporting multimedia applications for the radio broadcaster providing new opportunities to reach listeners in other targeted areas. Multimedia applications DMB (Digital Multimedia Broadcasting) brings the car passenger on-line information such as date of arrival, departure, road conditions or warning messages, news headlines and many other applications. DMB also allows TV broadcasts to mobile receivers.

The Czech Republic is adding to the growing number of states that have adopted the digital broadcast platform, EUREKA 147. In Europe this system is in use in, Great Britain, Norway, Denmark, Sweden, France, Belgium, Holland, Spain, Germany, Switzerland, Italy, Hungary, Malta and in Asia, South Korea and Australia.

The TELEKO Company has been operating for 13 years in the field of FM radio broadcasting and since 2004 has been intensively engaged in digital radio broadcasting. The company is the only Czech member of the international organization World DMB Forum (more: www.worlddab.org) and actively participates in promoting this type of digital radio broadcasting throughout the world.
