DAY WITH DIGITAL RADIO 2.

22. March, 10:00 – 17:00

Radioservis a.s., Vinohradská 12

Prague, Czech Republic

Following the success of the event in November last year, the official store of Czech Radioservis.a.s, in partnership with RTI cz s.r.o will hold **Day with Digital Radio 2** on March 22. Visitors to the store can learn things about DAB+, view the latest receivers and DAB+ purchases made on the day will come with a small gift.

Digital Audio Broadcasting (DAB) is the digital radio broadcasting standard used in the Czech Republic where listeners can enjoy over 30 services. DAB is the chosen digital radio standard used in several countries across Europe and Asia Pacific. There are currently 1,950 DAB and DAB+ services on air worldwide and over 46 million DAB/DAB+ services have been sold globally so far.
