

PRESS RELEASE

DAB+ NEW TRANSMITTER DOMAŽLICE - ČERCHOV

Today RTI cz s.r.o. launched a new transmitter for digital radio DAB+ in Domažlice - Čerchov. The transmitter complements the single-frequency network of transmitters on channel 5B Plzeň - Sylván, Klatovy - Doubrava and Třebouňský vrch.

The transmitter with the identification TII 0104 is located at an altitude of 1030m and with the radiated power of 1kW at Čerchov it significantly increased the coverage in the area of Domažlice, Kdyně, Horšovský Týn and Poběžovice.

Here you can tune in to the RTI cz DAB multiplex offering radio stations Czech Radio Karlovy Vary, DAB Plus Top 40, Radio Proglas, Radio 7, Radio BEAT, Radio 1, Signal Radio and Radio Ukraine.

The Domažlice - Čerchov transmitter is the eleventh transmitter of the RTI cz DAB multiplex and certainly not the last. Our company plans to cover other locations with the digital radio signal this year and thus offer listeners quality reception and an interesting programme offer, added Roman Kropáček, RTI cz's Chief Operating Officer.
